

# Join our Transgender, non-binary and gender questioning network

**Healthwatch Suffolk is hosting a network for people and professionals to shape better health and care together.**

The network is a working group of:

- Transgender and non-binary people
- People exploring their gender identity
- Health and care professionals

You must be over the age of 18 to join the network.

The people in the network will help it to grow and develop in a positive and inclusive way, supported by our co-production team and an ambassador from the trans community.

## Interested? Here's how you can join in

The network will be hosted online using the Lets Talk SNEE platform (hosted by the NHS in Suffolk and north east Essex). Find out more by visiting <https://www.letstalksnee.co.uk/tg-nb-gq-network>. You can also scan our QR code above.

For more information about our network, please call freephone 0800 448 8234, or email [coproduction@healthwatchesuffolk.co.uk](mailto:coproduction@healthwatchesuffolk.co.uk).
